

## Minutes of the Meeting July 22, 2006

The Texas Rotorcraft Association convened on July 22 2006 at 12:00 noon at The Backporch restaurant in Olney, Texas. It being the weekend before the Oshkosh Flyin, the attendance was less than normal. Several attendees flew in for the meeting.

Bob Stark announced that he had been appointed to become the National Rotor Wing Director of the ASC. The past director resigned. A discussion was held with regard to having a ASC Rotor Wing National flyin at the Olney Airport. This will be a Saturday and Sunday event and will include: ASC seminars, DAR seminars, flight demonstrations by manufacturers, free flying by attendees, vendor booths and displays, etc. This flyin will require more activity by the hosts than our previous flyins. The present contemplated date is 29 and 30 September, 2007. We can participate in this if we want to.

Bob O'Dell presented a financial report of our April flyin.
